

## PRODUCT CHANGE NOTICE

---

Part Number:

PROTO-104-K

PC/104 Prototype Board Kit (loose PC/104 headers)

Last Order Date: February 12, 2010

Last Delivery Date: May 14, 2010

---

### **Diamond Systems Announces End of Life for the Proto-104-K PC/104 Prototype Board Kit.**

Due to decreased demand of the Proto-104-K Prototype Board Kit, Diamond Systems is making obsolete the Proto-104-K.

**Diamond strongly urges our customers to begin ordering the Proto-104-A instead of the Proto-104-K product immediately. For customers for whom this is not possible, in order for us to fulfill your orders for the Proto-104-K, orders must be placed with Diamond Systems on or before February 12, 2010.** Only a firm order will guarantee the availability of this product to meet your needs. After February 12, 2010, availability of the Proto-104-K cannot be assured.

#### Replacement Product

For future needs, customers should order the Proto-104-A Prototype Board Assembly available from Diamond Systems. The Proto-104-A is an assembled version of the Proto-104-K and therefore is a fully compatible replacement for the Proto-104-K.

Proto-104-A

PC/104 Prototype Board Assembly (PC/104 headers installed)
